

D4350 3/4 Height Turnstile

SPECIFICATION

POWER SUPPLY

230V, 50Hz

CLEAR WALKWAY

600mm width

DIMENSIONS

1575mm length x 1445mm width x 1900mm height

CONTROL PANEL

PLC

FINISH

Primed/powder coated

CONFIGURATION

120° 3 arm rotor

PLC

Housed in a lockable overhead enclosure, the plc controlled bi-directional mechanism allows one passage per activation, and may be locked or set to free movement in either or both directions.

FINISH

D4350 turnstiles are powder coated in any standard RAL colour at no additional charge and you can even specify the rotor in a contrasting colour to the frame. LED backlit logos can be water jet cut to the overhead enclosure at additional cost.

ACCESS CONTROL

Small mounting plates are fitted as standard to enable fitting of most proximity readers. Upgrades may be specified if you need to mount intercoms or larger items.

CONSTRUCTION

The frame and rotor are fully welded heavy duty steel components for maximum strength and longevity, and the rotor pivots on a sealed roller bearing. The rotor arms are 40mm diameter arranged in 120° configuration for easy pedestrian access.
